SUMMARY

A tenacious full stack/frontend web developer with a background in sales. Thinking of the results of a certain code and mentally using these results to problem solve another piece of the puzzle is what keeps me motivated and pushes me to want to learn more. I thrive on "theory crafting". Experience working in collaborative environments and timed projects.

SKILLS

LANGUAGES: Javascript, Python, HTML5, SCSS, CSS3, Ruby
FRAMEWORKS, LIBRARIES & ENVIRONMENTS: NodeJS, ReactJS, Express, JQuery, Ajax, Axios
DATABASES & SYSTEMS: PostgreSQL, Github
TESTING LIBRARIES: Mocha, Chai, Jest

PROJECTS

Footprints   Current
A virtual E-commerce website with enhanced UI/UX design for selling shoes.
